

Congratulations to our 2015 Cytotechnology Graduates!

ASCT wishes you the best in your new profession!

Remember to avail yourselves of the ASCT Career Center, a free service that provides access to cytotechnology positions and employers. In addition to posting their resumes, job seekers can browse and view available jobs based on their criteria, and save those jobs for later review if they choose. They can also create a search agent to provide email notifications of jobs that match their criteria.

Employers can post jobs online, search for qualified candidates based on specific job criteria, and create an online resume agent to send email alerts on qualified candidates daily. They also benefit from online reporting that provides job activity statistics.

As a registered employer or job seeker you also have access to the National Healthcare Career Network (NHCN), a network of over 60 top healthcare associations and professional organizations. ASCT's alliance with NHCN increases your reach to over 7,000 resumes and over 1,500 job postings – giving you more control over your career advancement and providing you with a one-stop-shop to find high quality candidates.

You can access the Career Center at our website, www.asct.com, or from the tab at the top bar of all Viewpoints. ASCT also offers resume and interviewing tips in the Student Forum section of the ASCT website. Good luck!
