

ASHI Volunteer Spotlight

Name & Credentials: Denise Butler MS, CHS (ABHI)

Employment: University of Maryland Medical Center

What committee(s) do you serve on?

I serve on the Membership Committee.

How did you get started as a volunteer for ASHI?

I signed up to volunteer at the 2018 ASHI Annual Meeting.

How has volunteering for ASHI improved your professional development?

It has allowed me to network with other ASHI members.

What is your most memorable volunteer moment?

During one of our Membership committee calls, we were brainstorming how to re-vamp the new members reception and someone suggested a networking event kind of like speed dating! Such a great out-of-the-box idea. I love that other people in ASHI also want to see ASHI continue to grow and succeed while having fun at the same time.

Why do you think it is important for others to volunteer with ASHI?

It's another way to get more involved and give back. It provides satisfaction in the HLA field outside of day-to-day work that we all do.
