

ASHI Proficiency Testing Surveys

HT-1 Survey

The Summary and Performance Reports for the HT-1 Survey (and HT-B27) are now available in the NEW PT Lab Center under Reports/Summary/Performance. If your login is not allowing you access to the reports, you may be using an incorrect login.

If the name above the PT Lab ID number appears as “Lab Administrator” (followed by the name of your lab), you are likely logged in with a username that does not allow access to reports. To access the reports, please login with your personal user account (personal username and password), rather than the Lab Account/Lab Administrator login.

AC-1, EMO-1, and Educational Virtual Crossmatch Challenge

The PT Committee is diligently working on the grading of the AC-1 and EMO-1 surveys as well as the data report for the Educational Virtual Crossmatch Challenge. The goal for the committee is to complete the grading and the reports as soon as possible, but due to the complex nature of the grading process, it is very difficult to predict the exact date for the release of the reports.

The PT committee appreciates your patience as you await the reports for each survey. Laboratories will be notified by email once the grading process for each survey has been completed and the reports have been finalized and posted in the new Lab Center.
