

Transforming professional performance through the power of interaction

ASPE 2016 A Great Success!

ASPE 2016 in beautiful Tampa, Florida concluded last week and, based upon abstracts submitted, number of attendees, and the breadth and depth of the program, was an unqualified success. Congratulations to **Cathy and the Conference Committee** team who put in so many hours to forge it into the unforgettable experience it was. More information about what happened during the conference will be in coming issues.

However, now we wish to hear from the attendees. Were you particularly impressed by a presentation you attended? For presenters, what was the experience like for you? Would you like to contribute additional thoughts about the experience, the feedback you received, lessons learned?

We are looking for any and all contributions. It can be a very simple few sentences to a more structured article of several hundred words. It can even be a personal anecdote about something you experienced or felt during the conference. This can be for first-time attendees or for returning members, from members from North America or any of the 16 other countries represented. You may even partner with another attendee to submit something.

From the *ASPE eNews* perspective, the articles in this publication which receive the most “opens” are original submissions. They are the most widely read and valued and we look forward to receiving submissions in any form with which you are most comfortable.

You don't have to stick to any format, just a simple narrative is fine. However, if you would like to follow the brief guide provided on the next page, you may. Don't worry copy details, our team will take care of that. Simply forward all submissions to jim.bills@vanderbilt.edu.

We look forward to hearing from as many of you as possible!
