CEUs This CPE program is accredited for 1 contact hour (0.1 CEU)*

Webinar Objectives

At the end of this three-part session, participants will be able to:

1. Define the frequency, severity, and preventability of harm due to adverse drug events from antithrombotic agents in the state of Arizona.
2. Identify who is accountable for new behaviors to protect patients and caregivers from errors and harm related to antithrombotic agents.
3. Employ screening techniques to better identify potential adverse drug events associated with antithrombotic agents.
4. Appraise what direct actions to take to help prevent harm and reduce errors related to the antithrombotic agents.
