

We're excited to share our news about **PowerUp WHAT WORKS** (www.PowerUpWhatWorks.org), developed by the Center for Technology Implementation at the American Institutes for Research. **PowerUp WHAT WORKS** is a **free** professional learning website that offers teachers, PD facilitators, and administrators' resources for helping struggling students, especially those with disabilities, meet the Common Core State Standards. The focus is on linking evidence-based practices and technology in English language arts and math.

Visit our website (www.PowerUpWhatWorks.org) to explore the wealth of evidence-based content, resources, and tools available to you and your stakeholders.

Please help us spread the word about **PowerUp WHAT WORKS** by:

- ✓ Emailing this message to your network
- ✓ Posting the **PowerUp WHAT WORKS** [link](#), description, and logo on your website
- ✓ Sharing our [PowerUp Flyer](#) with your colleagues
- ✓ Including an article about **PowerUp WHAT WORKS** in your newsletter (we can provide draft language based on your newsletter specifications)
