# MARCH 21 2018

# CONCRETE

# PLANT TOUR

This day event will kick off at 9:00 AM at the Markham **Dufferin Concrete plant**, featuring **breakfast** and **networking** session.

Following breakfast will be a **presentation** from **Richard Sluce**, P.Eng. Richard holds both Bachelor and Masters' degrees in Civil Engineering from Ryerson University. He joined CRH (formally Holcim) in 2012 and has spent time working in both the Cement and Ready Mix Concrete Divisions in Ontario and Western Canada. Prior to joining CRH, Richard worked for a number of different areas of the building products industry with experience ranging from sales & operations management, logistics, business development, and novel product development.

After breakfast and the presentation, Richard will be conducting a **tour** of the **Dufferin Concrete plant**, as well as provide some insight into the Concrete industry in Ontario and some new **innovative** industry trends and products.

The tour will be worth **2.5 PDH** and has **limited spots available**. Register to reserve your spot today at the **Eventbrite link** in the **CSCE e-bulletin**.

For more information, contact CSCE's Alexander Andrenkov at [a.andrenkov@gmail.com](mailto:a.andrenkov@gmail.com)
