

Free CMS National Provider Call: Access to PECOS, EHR, and NPPES

By AAFP

The Centers for Medicare and Medicaid Services will host a national provider call, [Streamlined Access to PECOS, EHR, and NPPES](http://www.eventsvc.com) through the Medicare Learning Network Program on Friday, November 15 at 1:00 p.m. CT.

The call is for all Medicare fee-for-service providers, as well as professionals and hospitals eligible for the Medicaid Electronic Health Record (EHR) Incentive Program. Changes have been made to simplify the way providers and suppliers access the Provider Enrollment Chain and Ownership System (PECOS), the EHR Incentive Program, and the National Plan and Provider Enumeration System (NPPES).

The call is free of charge, and registration is required.
