B **Overheating Solar Panels or Wind Turbines?**

SEIA networking event
SEIA is hosting a networking event at the Standard in Los Angeles, on Wednesday, June 1. This event is sponsored by Hurton & Williams LLP, PNC Energy Capital, Raznick Group P.C., and Trina Solar. RSVP to Matt Hannon at mhannon@seia.org by May 26 if you would like to attend.

Suntech adds a third shift at Arizona solar plant
The Associated Press via Forbes Suntech Power Holdings Co., a solar panel maker, said it has hired 30 additional workers as it expands its manufacturing plant in Arizona to produce about 15,000 solar panels per month with the capacity to generate 50 megawatts a year. **MORE**

SoloPower to build \$340 million solar factory in Oregon
Silicon Valley solar startup SoloPower will build a \$340 million photovoltaic manufacturing plant in Wilsonville, Ore., that will eventually employ approximately 500 people and reach a capacity of 300 megawatts. The San Jose, Calif., manufacturer of flexible thin-film modules made the announcement Thursday after securing a \$10 million loan from the Small Scale Energy Loan Program, a renewable-energy promotion program of the Oregon Department of Energy. **MORE**

AET Meeting for all panels available on the web

Lowe's to offer Sungevity solar panel estimates
USA Today Wonder how much solar panels on your home would cost and how much power they'd produce? An easy answer will soon be at hand at Lowe's home improvement stores in eight U.S. states. Beginning this summer in California, select Lowe's stores will have kiosks provided by residential solar company Sungevity. **MORE**

Emerson to supply Texas solar project
At Lowe Business Journal Emerson said that it has a contract with Wind Turbine & Energy Cables Corp. to supply utility-scale power inverters for a 30-megawatt solar power plant in Webberville, Texas. Emerson didn't disclose the value of the contract as a supplier on the \$180 million Webberville project, which is expected to generate enough electricity to power 5,000 homes. **MORE**

New Jersey an unlikely leader in solar energy
Reuters New Jersey, home to more industrial waste clean-up sites than any other state, is poised to become an exemplar of solar power usage — though not everyone is happy about it. Yet the combination of a strict state mandate and a generous carbon offset program has made New Jersey — where only three in eight days are sunny — the second largest U.S. producer of solar power, after California, where more than half the days are sunny. **MORE**

Product Showcase

Schuco USA Introduces Thin Film Solutions
Designed for fast and low cost installation due to its panels, no drilling and partially pre-assembled ideal for minimal roof loads requirements due to ballast free design providing a contribution for its 130W/m2. Product can start to collect energy sooner and longer than crystalline due to ability to tolerate poorer low light conditions. Flat rate system pricing, includes cables and inverters. www.schuco-usa.com

1000 Volt UL1741 Solar Power Plant
American Electric Technologies, Inc. (AETI) (www.aeti.com) introduces 1000 Volt UL 1741 Contributor for its 1300 Volt PV inverter to 15 kW or 38 kW 155W/m2 solar panels. The solar power plant to eliminate terminal cable issues with building 1000 Volt solar farms. For more information, contact js@schuco.com

Connect and monitor PV systems
Whether you're a module or inverter manufacturer, PV system designer or installer, Phoenix Contact can help improve efficiency, save time and reduce labor costs. Our comprehensive line of solar solutions includes power terminal blocks, cable wiring solutions, surge protectors, solar meters and current transformers. Laid-off auto workers find solar job power
CBS Evening News Few states lost more jobs in the Great Recession than Michigan, where nearly one out of every 10 jobs disappeared. But, as CBS News senior correspondent Anthony Mason reports, one CEO is fighting back. "We have a war today," Andrew Liveris says. "It's an American crisis on our job." **MORE**

Large Volume Solar Tanks

General Motors breaks ground on solar panel field at Detroit-Hamtramck plant
Detroit Free Press General Motors broke ground on a six-acre field of solar panels in front of its Detroit-Hamtramck plant as part of an effort to green the production of its Chevrolet Volt extended-range electric car. **MORE**

Seahawks and Sounders going 'green' with new solar energy plan
The Herald Time to prepare your "but the sun never shines in Seattle" jokes, because the Seahawks and Sounders are planning on using solar panels to help power the Qwest Field Events Center. The plan is for 3,750 solar panels to be installed on the roof of the events center, generating the equivalent of 95 houses worth of electricity per year. **MORE**

Solar Fest shines light on sun's power
San Antonio Express-News Despite a cloudy sky for part of the day, the 10th annual Solar Fest went on as planned, highlighting everything from panels that gather sunlight to toasters that handle waste with it. Five bands played on a solar-powered stage, while visitors toured the 90 booths that fill Maverick Park near downtown, juggling all manner of solar-powered or green technology. Kids played in giant hamster balls and adults lined up for free tree seedlings. The food booths cooked over open fires. And all of it was off the grid. **MORE**

SEIA SOLAR UPDATE, POWERED BY MULTIBRIEFS, PROVIDES WEEKLY NEWS AND INFORMATION TO THE ENTIRE SOLAR INDUSTRY NATIONWIDE.

The news tackles today's most relevant issues, gathered from sources like **The Associated Press, The New York Times, Financial Times** and the leading industry publications. Delivered to the inboxes of distributors, financial institutions, installers, manufacturers and consumers who spend \$40 million a year on products and services your company provides, the SEIA Solar Update keeps professionals informed of topics that impact the daily operation of their business. Subscribers are decision-makers with purchasing power - the top-tier professionals in the industry.

SEIA SOLAR UPDATE
IS A PROFESSIONAL RESOURCE FOR

NEWS+
IDEAS+

TOP TEN REASONS TO ADVERTISE IN SEIA SOLAR UPDATE:

CREDIBLE SOURCE

For over 35 years, our members have turned to the association as the informational authority of the industry. Advertising in SEIA Solar Update solidifies your place among weekly information provided to SEIA members.

TARGETED DISTRIBUTION

Advertising in SEIA Solar Update allows your company to reach industry decision-makers. Your message will be in front of pre-qualified buyers who are looking for your products specifically for their business.

OPT-IN SUBSCRIBER LIST

Subscribers to SEIA Solar Update have asked to receive this information. Your ad will no longer be mixed with junk mail and spam. Our enhanced technology ensures that your ad will make it through spam filters.

RELEVANT CONTENT

Our editorial philosophy is driven by current events and relevant industry issues and trends that affect our subscribers the most.

FREQUENCY

Frequency builds awareness. As a weekly publication, SEIA Solar Update ensures your ad will be seen every week by our 5,700 subscribers.

AFFORDABLE

Advertising in SEIA Solar Update is much cheaper than many other Internet advertising options, and much more affordable than television and radio promotion. Have you priced pay-per-click campaigns lately?

YOUR AD WILL GET THE ATTENTION IT DESERVES

Each issue of SEIA Solar Update has a limited number of ad spaces, allowing your ad to get maximum exposure. A limited number of ads equals higher visibility.

IMMEDIATE RESPONSE TO YOUR AD

The electronic format makes it more convenient for a reader to respond to your ad. Your product is just a click away!

EXCEPTIONAL CREATIVE SERVICES

Our talented graphics team is continually raising the bar by creating sophisticated Web ads for our clients. These services are offered at no charge to advertisers in SEIA Solar Update.

TRACK CAMPAIGN EFFECTIVENESS

As an advertiser, you'll have the ability to track reader response your campaign, immediately quantifying your ROI.
