Have you ever wondered what training looks like in other SP programs? This presentation will provide a panel of three institutions reflecting on how and why they have certain practices of training for SP events. This presentation will delve into how we establish training practices, highlight what is similar between the programs, reflect on what is working, and provide insight into other training practices attendees could perhaps adopt for their own program. An important topic for SP educators at any level to deepen their understanding of the variety of training practices.
