

## Changes Coming to *ASPE eNews*

By Jim Bills, ASPE Publications Committee Chair

There are changes in progress for *ASPE eNews*. The first is that our relationship with MultiView is coming to an end this month, with the December 20<sup>th</sup> year-end “Best of...” edition being the last newsletter distributed by them. We wish to thank MultiView for their support over the years. In particular, we wish to express our appreciation to **Cait Harrison**, our contact at MultiView who was responsible for reviewing and formatting each issue, ensuring hyperlinks were good, and researching appropriate media articles to include that sometimes were more popular than our own content.

The Board of Directors is working hard to develop an alternative method of assembling and distributing each *ASPE eNews* issue and we are confident something will be in place very soon. We will let you know what that will be as soon as something definitive is available.

In other news, long-time ASPE Publications Committee member **Darlene Parker** is stepping down to concentrate on other committee responsibilities. Darlene has been a valuable member of the Publications Committee for a number of years and has made many contributions. Thank you, Darlene, and we wish you the very best.

*To bring high quality reporting of current research, trends, techniques and information regarding SP methodology and other relevant industry articles to the attention of the membership through the web-based, bi-monthly newsletter, **ASPE eNews**.*
