

## Single Email Address for BREB/TREB Members

Essentially, everyone who has a computer has at least one email address. Many people have multiple addresses for personal and business use. As Members of the Brampton Real Estate Board, you have another: your Trebnet address. The problem with having many email addresses is that you may be missing correspondence sent to a rarely checked account and this can be costly in a business like yours. Starting on October 28, when Members log in to Stratus™, a dialog box will appear asking them to choose a single email address. This email address will be used for all BREB/TREB communications, copies of listings sent to clients including Prospect Matches, and REALTOR.ca. Choosing an email address is mandatory. You will not be allowed to access the MLS® System without making your selection and agreeing to the terms and conditions. **\*\*\*IMPORTANT: You must also send an email to [info@breb.org](mailto:info@breb.org) notifying the Board Staff that your email address has changed. \*\*\*** After you have selected your email address, you will be prompted to confirm it (or change it if you wish) every four months. This will ensure that all BREB/TREB Members have an accurate, live address on file. **Note:** If you want to change your email address at any time in the future, you may do so through Manage My Profile. Members who have asked the Help Desk to forward their Trebnet emails to other email accounts should be aware that these changes will **in no way** affect that arrangement.
