

AIG new COPA VIP Aviation insurance underwriter

The Canadian Owners and Pilots Association and The Magnes Group Inc. are pleased to announce that effective October 1st, 2013, COPA's VIP Insurance Program will be underwritten by AIG Insurance Company of Canada. AIG Property Casualty is a leading aviation insurer in the world and has been the long term, endorsed provider of coverage for the AOPA Insurance Program.

"Magnes has secured a great partnership with AIG, whose proven experience with our sector of aviation through their relationship with AOPA, will help us manage risk and provide the best possible features and rates for our members. I am excited about this enhancement to our insurance plan," said Kevin Psutka President and CEO of the Canadian Owners and Pilots Association

Belinda Bryce, V-P Aviation for The Magnes Group said, "We believe that this new partnership with AIG is not only a testament to the tremendous work that COPA does for promoting safety and general aviation in Canada, but it ensures that COPA members continue to get a high quality product with leading edge coverages along with unsurpassed professional service."

Chairman of the Board, AOPA Insurance Agency, Inc. and President, AOPA Holdings Corporation Michael P. Skarzynski said, "The AOPA Insurance Agency, Inc. with headquarters at the Wichita Mid-Continent Airport is the largest light aviation insurance brokerage in the United States, and is also among the oldest tracing our roots back to Don Flower Associates founded in 1953. Throughout our history, the AOPA Insurance Agency Inc. has worked closely with AIG serving our AOPA Members with best-in-class aviation insurance coverage and the highest level of customer service, product quality, innovation and customer satisfaction. We congratulate AIG and the Magnes Group on working to serve the aviation insurance needs of the Members of the COPA, and on behalf of all of us at AOPA we extend our every best wishes for Clear Skies and Tailwinds to our friends and colleagues of the Canadian Owners and Pilots Association.
