

Two for one at CYHS

The 2013 COPA Rust Remover will be held at the Saugeen Municipal Airport in Hanover, Ontario on Sunday, April 28.

There will be two sessions that you can attend; one session in the morning, enjoy a tasty lunch and then attend a different session in the afternoon.

Our presenters are Nav Canada and Transport Canada. Nav Canada is sending Kurtis Arnold, an air traffic controller in the Toronto Area Control Centre. Some of the topics that Kurtis will cover include; the role of the London FIC and the service that they provide; communication with ATC and iPads in the cockpit.

Aside from being a controller par excellence, Kurtis is a commercial, IFR rated pilot and he and his wife own a beautiful yellow and white Cessna 195 which was featured on the cover of *COPA Flight* near the end of 2011.

Transport Canada is sending us Duncan Chalmers, a Civil Aviation Inspector based in Hamilton, Ontario. Attending this seminar will qualify you for the two-year-recency requirement as per CAR 421.05(2)(b).

Topics to be covered are: Runway Incursions Prevention; Transport Canada Video “Danger on the Runway”; Focused Safety Presentation on Landings and Reflections; TSB Cases Study on Loss of Power After Take-Off as well as Shoulder Harness, Lesson Learned plus more.

As a bonus there will be another short presentation by Belinda Bryce of Magnes Insurance who underwrites the popular COPA VIP Insurance. Belinda will attempt to answer all your flight insurance questions.

Once again the day will start with a special, inexpensive breakfast served by Frankie’s, the airport restaurant from seven a.m. The safety sessions will start at nine a.m. The barbecue lunch special will start at noon followed by the afternoon safety session at one p.m.

There will be some great door prizes from our sponsors and you will get your free ticket for this when you register. This a great time to get safe for the flying season ahead and do some hangar flying with old and new friends when you attend the 2013 COPA Rust Remover at the Saugeen Municipal Airport in Hanover.
