

PRESS RELEASE—For Immediate Release

May 12, 2015

The American Board of Pathology (ABP), Tampa, FL, is pleased to announce the election of Jeffrey Goldstein, MD as a Trustee for a term beginning in 2016.

Dr. Goldstein has been the pediatric pathologist at Wolfson Children's Hospital in Jacksonville, FL for nearly 27 years and has served as Chief of the Independent Service of Pathology and as Medical Director of Laboratories and the Transfusion and Apheresis Service for Baptist Health. In August, he will be joining the faculty at David Geffen School of Medicine, UCLA and will be Clinical Chief of Pediatric Pathology at Mattel Children's Hospital and Ronald Reagan UCLA Medical Center. Dr. Goldstein graduated magna cum laude from the University of Pennsylvania and received his MD degree from Emory University, where he was elected to the Alpha Omega Alpha honor society. He completed residency training at Brigham & Women's Hospital and fellowship training in pulmonary pathology at Brigham & Women's and Boston Children's Hospital. He has been actively involved in numerous medical and pathology professional organizations and served as President, Councilor, chair and member of several committees of the Society for Pediatric Pathology. He is a Co-Principal Investigator for the Children's Oncology Group. Dr. Goldstein is ABP certified in anatomic and clinical pathology, pediatric pathology, and voluntarily recertified in 2013. He is enrolled in the ABP Maintenance of Certification program. He has served on the ABP's Pediatric Test Development and Advisory Committee since 2005 and will chair that Committee as a new Trustee.

The American Board of Pathology (ABP), a member board of the American Board of Medical Specialties, was established in 1936. The mission of the ABP is to promote the health of the public and advance the practice and science of pathology by establishing voluntary certification standards and assess the qualifications for physicians seeking to practice the specialty of pathology.
