

Support GASO – Help a patient kick the tobacco habit

KAFP

The Kansas Academy of Family Physicians is joining physicians across the U.S. in celebrating the annual Great American SmokeOut on Thursday, November 17. Kansas has seen a decrease in the number of residents that smoke, yet thousands still struggle with their tobacco addiction. It often takes 7 to 9 quit attempts before successfully overcoming tobacco. Patients indicate that a healthcare provider's advice to quit is a strong motivator in taking the first step. As a family physician, you are a motivator!

If you are interested in the latest tobacco training and resources for your practice while earning CME, please contact Kim Neufeld at 316-425-5607 or kneufeld@kafponline.org for details.

Continuing Medical Education: *This enduring material activity, Addressing Tobacco Use in Kansas: The Brief Tobacco Intervention, has been reviewed and is acceptable for up to 1 Prescribed credit(s) by the American Academy of Family Physicians. Term of credit begins 1/15/2016. Term of approval is for one year from this date. Physicians should claim only the credit commensurate with the extent of their participation in the activity.*
